SANGANIKA

DEPARTMENT OF COMPUTER SCIENCE

REPORT FOR

TECH MARATHON '25

DATE: 1st March, 2024
TIMINGS: 10:30 AM to 6:30 PM
VENUE: Deen Dayal Upadhyaya College, Dwarka Sector-3, New Delhi
Teacher-In-Charge: Dr. Anuja Soni
Convenors: Prof. Ram Pal Singh & Mr. Anil Kumar

Sanganika, the computer science society of Deen Dayal Upadhyaya College, organized **Tech Marathon 2025**. The annual fest featured several Events Which were all hits, with numerous participation and lots of positive feedback. Even though we faced countless problems, financial, timing, and venue constraints, we ultimately emerged victorious and the event ended in a massive success, marking yet another successful Tech Marathon for the glorious year of 2025.

The Tech Marathon 2025 resulted from the combined effort, trial and error, and time devoted by the Event Heads, executives, council members, and Volunteers who worked day and night to make this event a grand success. The Preparation of this Grand Program started almost 15 days before the fateful day. President **Kunal Sharma** spearheaded the entire project through countless sessions and meets, both online and offline. Ultimately, an action plan was chalked out. Time was an obvious constraint, as the entirety of the planning and preparation had to be done in less than a month. Also, the TM this time was to be held in only one day, so fitting all the events in one single day was also a tricky task. Nonetheless, a basic plan of motion was created and the Tech Marathon was the result of the collaborative effort driven by dedicated teams, each playing a crucial role in its success. The **Decor Team**, led by PSCS Vice President **Anjali Archana**, was responsible for creating the banner and designing the photo booth. The **Public Relations (PR) Team**, managed by PR heads **Abhinav** and **Vishakha** alongside CS Hons Vice President **Nitish** Ray, tirelessly coordinated with sponsors, ensuring all their demands were met through extensive communication. The **Content Team**, led by **Shibaditya Dasgupta**, crafted essential captions, slogans, and reports to keep the event well-documented and engaging. Meanwhile, the **Graphics Team**, under the leadership of **Yuvraj**, designed themes, posters, flexes, and social media posts to enhance visibility and promotion. Finally, the **Executives**, the backbone of the event, turned ideas into reality. Among them, notable contributors **Atulya Shashwat** (General Secretary) from CS Hons' second year and **Kaily Singh** (Executive) from CS Hons' second year played a pivotal role in structuring the entire Tech Marathon.

Along with all of them was our silent leader, our president **Kunal Sharma**, who worked silently, acting as the bridge between teachers, faculties, and the

authorities, facilitating the Event. From managing the budget to making the necessary purchases to help in the events, he was there, always, with a smile on his face and making sure all our requests were met. Coming to College before everyone and leaving after everyone, he truly was the torchbearer for this incredible journey.

Finally, on the 1st of March, the D-day arrived, with all of the members of the OC keeping their fingers crossed for the incoming participants. The Clock struck 10:30 am, and the official timings of the Events started up. But Till then, no one had shown up for the event. The auditorium was all ready to start the events, but due to lack of Audience, we had to delay the starting to 11:00 am. Finally, the programs in the Auditorium started, and the event officially started, albeit with a little delay. Two Hours of Dances, Singing, Performances, and a word from our sponsors were truly a sight to behold. The teachers also gave their praises to the O.C. and encouraged the juniors to learn from us and take notes on how to organize events effortlessly. Finally, somewhere around 1:00 pm the programs of the Auditorium came to an event, and the Events for the Tech Marathon officially started.

Some glimpses from the Auditorium are given below:

There was a total of Nine events in this year's Tech Marathon, including:

•**Auction Of Bytes**: - There would be two teams, one who will attend the Auction and one who will code on behalf of them. The auction team will use their allocated funds to buy codes ranging from easy to medium, hard, and Extreme. Smart expenditure of funds would result in Good codes for the coding team

•**Bumble Jumble**:- The Codes for the participants would be jumbled and distorted, and The participants would have to rearrange them to make meaningful lines of code.

•**Code Benders**:- Pure, unfiltered competitive coding focused on speed, knowledge, and instincts. Only for people who are interested in hardcore programming

•**Blind Coding**:- Participants would have to code and build programs, but the codes won't be displayed on the screen. Only the keyboard and the compiler will be shown, and the resulting codes will be hidden from the participants. Only for people who have prime confidence in their coding performance

•**Tech Wars**:- A Quiz battle to determine who is the most tech-savvy and updated on the most recent Tech-trivia.

•**Tech Escapade**:- A puzzle and treasure hunt based on the recent Technical happenings all over the world.

•**Turn Courts**:- Facts and opinions collide in this debate competition about the most talked about Tech topics.

•**Valorant**: - A fast-paced tournament wherein teams of 5 people play rounds of search and destroy mode in Valorant.

•**Gaming Roulette**:- A gaming event where teams collide while playing a variety of games, decided by a roulette wheel which has games ranging from action to puzzle and racing.

ESTIMATED NO. OF REGISTRATIONS: 1000+

While Valorant and Code Benders were held online, all the rest of the events were held offline, having a scheduled time from 1:00 am to 6:30 pm, with some events overlapping and colliding due to the slight delay we had at the beginning of the Auditorium program. Nonetheless, the participants were enthusiastic and more than eager to showcase their skills and win prizes.

Some Glimpses of the events:

The Combined efforts of all the O.C. members bore fruit as all the Events in the tech marathon saw healthy participation and attendance. All the teachers and faculty members praised the entire arrangement, earning gleeful smiles from the council members. After all the Events were concluded, the OC took a much-needed break, chilling and commending each other for their hard work.

Conclusion:

TECH MARATHON '25 was a resounding success. A test of our creativity, adaptability, and resilience, this event saw the entirety of the computer science department gather around and help each other, in making this grand event a major success. All the OC members, the Event heads, the Executives, the Graphics, Content, and PR heads, and the President and Vice Presidents Put their hearts and minds into this and made sure that the legacy of our college of hosting one of the best Technical Events stays strong and true.
