2.6.2 Attainment of Programme outcomes and course outcomes are evaluated by the institution.

The touchstone of teaching-learning at DDUC is the individualized attention given to each student. This approach gets translated into strong student-faculty bonds that enable mapping of academic progression in formal and informal settings.

- **The Academic Supervisory Committee:** Ensures that faculty take lectures and tutorials regularly.
- **Assignments** are well crafted and administered regularly; consistently evaluated in time; and discussed with students to provide timely feedback. Written assignments are graded and are returned with appropriate annotations and comments. Students are given opportunities to improve performance through makeup assignments or tests.
- **Class Tests:** As part of IA, class test are administered as per the schedule notified by departments. Afterwards, evaluated scripts are shown to students and discussed.
- The classes are interspersed with interactive individual and small **group project presentations** keeping up a high level of interaction and student centric pedagogic approach.
- **Laboratory work** is punctuated with mock practical tests to check the skill of the student as an experimenter.
- The faculty also use **viva voce** to check if the students understand the objectives of the course. Based on this oral interaction, remedial action is then taken immediately.
- **Observation of student engagement** in lectures and tutorials; level of enthusiasm and engagement during discussions, debates, and questions posed to experts during enrichment programmes allow teachers to gauge conceptual understanding. Performance on each of these evaluative tasks is explicitly conveyed to the student through individual feedback or group discussions.
- The students engage with **eminent speakers invited** to DDUC through intense question-answer sessions and open interactions. Often, the principal and the faculty too are present at these beyond-the-classroom enrichment programmes. Such activities help in promoting better understanding of both the curriculum and the problems and issues of the real world. They also help pry open the classroom and allow independent observers to gauge the depth of student understanding.
- Direct **student feedback** also assists in analysing how well course objectives are being met.
- Grades in accordance with well-defined rubric and end-semester **DU examination** results are taken as the ultimate indicator of student achievement of course objectives. These are carefully analysed. Remedial classes are arranged for low performing students.
- **Societies and departments organize several programmes** that link the theoretical frameworks of courses taught to the ground reality. Inasmuch as all societies include members from all courses, the students bring distinctive perspectives and unique prismatic views to the issues on hand.

- All departments and societies undertake periodic review of the extramural programmes organized by them. These are also summarized for inclusion in the Annual Report.

The college takes pride in accomplishing these goals through successful implementation of all formal educational processes. This is evidenced by the success of alumnae and their immense contribution to all fields of human endeavour.

Part A is compulsory and carries 20 marks

Attempt any three questions from part B

Part A

1. (a) What is Difference between class variable and instance variable?
Explain. 3
- (b) What is Difference between overloading function and
Overriding function? Explain. 3
- (c) What is Dynamic method Dispatch? Illustrate with the help of example. 3
- (d) What is ternary operator? Give an example. 3
- (e) In the below example, how many String objects are created?

String s1 = "I am java expert";

String s1 = "I am c expert";

String s1 = "I am java expert";

(f) What will be output of code?

Public class operatorexample{

Public static void main (string args[]) {

int x = 4 ;

System.out.println(x++);

} } 2
- (g) Can constructor be overloaded in class? If yes, give suitable example. 2
- (h) What is difference between java and c++? 2

Subject: Open Book Examination- Paper setting under Annual mode-B.Com, Part II INCOME TAX B-104

Dear **Dr. Vinay Kumar (Aryabhata) (Convener)**

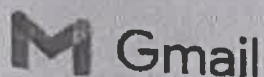

Greetings from Department of Commerce, Delhi School of Economics, University of Delhi!

We hope that things are fine at your end and you are able to negotiate the difficulties of this global pandemic.

In accordance with the University's guidelines regarding managing examinations and internal assessments of students in today's difficult times, the University is considering the option to conduct an Open Book Examination for CBCS Course and Three Year Semester scheme (applicable for ex-students)/ Annual mode. This remote examination shall be held for the first time and hence a lot of unanswered questions and apprehensions are there in mind. However, in order to facilitate academics with no loss to students, we need to gear up.

Complying to the directions and guidelines of the University, kindly follow the steps mentioned hereunder and send the question paper in time:

1. You are requested to prepare **THREE** sets of question paper based on Open Book Examinations (OBE) mode.
2. You are requested to contact other members of the Board for setting of question papers as per the enclosed guidelines. You are also requested to ensure that the board of paper setters moderates the question papers before submission.
3. Only the convener of board of paper setters is responsible and authorised to submit the moderated sets of question paper at email id: ugexam@commerce.du.ac.in strictly without marking cc or bcc to anyone else to maintain confidentiality and secrecy intact.
4. Keeping in mind the security and privacy issues, the question papers (moderated) are to be communicated through **Password Protection in MS-Word or PDF**. Further intimation will be provided regarding sharing of password.
