National Conference

on

Sustainable Environmental Perspectives: A Journey from Ancient India

About the Conference

The environment encompasses the entire range of events and changes that we notice, experience, and react to. Environmental science, in its broadest sense, is the study of intricate interactions that take place among the terrestrial, atmospheric, aquatic, living, and anthropological environments, and includes all disciplines that affect or describe these interactions, such as chemistry, biology, ecology, and sociology. World Environment Day takes place every year on 5th of June. It is the United Nation's flagship day for promoting worldwide awareness and action for the environment. As NEP is also focussing towards strengthening the knowledge for environment amongst students under the theme "Stimulating Indian Knowledge System, Arts and Culture". "Knowledge of India" will comprise of knowledge from ancient India and modern India, and a clear picture of India's future aspirations with regard to education, health and environment.

Date	Registration Details	Themes
June 05-06, 2022	For registration click on link https://forms.gle/caZrMnyZadHaANyo9 Or Scan QR code  Free Registration Last date: May 27, 2022 For Queries: conference.env.2022@gmail.com	<ol style="list-style-type: none"> 1.
