Dear All

I am sharing information available on <http://du.ac.in/du/index.php?page=online-platforms-for-teaching>

Online Platforms for Teaching

To provide learning support to students, Google Services are integrated with our DU domain, including our mails etc. Two of their major apps viz. Google integrated. All of us can use these services to teach the students.

Following are the links of user guides for basic know how and to conduct classes online.

[Google Classroom User Guide](#)

[Google Hangouts Tutorial](#)

There are many video based collaboration services available e.g. webex, Zoom, Loom, Skype etc. Google has both the component and it is free for education.

These services are now very well integrated with your DU email account, just login and click on the top right (multi dot icon) and you will get multiple app

Please use following link to proceed:

<https://accounts.google.com>

Please use the following:

1. Google Classroom: It works like LMS (learning management system), you can share any type of document (doc, ppt, pdf etc.), create assignments, share and can create multiple classes as per your requirement.
2. Hangout: This service is for the live video interaction with your students. You can run this along with the google classroom or as per your requirement multiple things (including your laptop/mobile screen) with your students along with your live video.
3. And of course you can use your DU emails here.
