Some of the Remarks for improvement

•	Give attention towards other sports also (like judo,tai kun do and etc..)
•	Infrastructure wise the college is excellent in dwarka. In library there should be more no. Of copies of books added to the shelf .
•	Actually to be honest, the non-availability of some of the basic amenities is overpowered by the quality of faculty of DDU even though it was in classroom with roof made of cemer changed the campus, we I hope that we are ranked in top 5.
•	After B.Sc (H) also, there is a big challenge to enter in the industry.
•	As majority of my college years were spent in the old campus hence my rating is dependent on the same. For me, I think teaching method and evaluation is something that needs habit of reading, creating opportunities for students to experiment and innovate within their course, more efforts put by students and teachers on how the assignments needed to be to be put down, more classroom discussions, using visual material like movies, ads, pictures to teach would help enhance the quality of education.
•	College has improved a lot in terms of infrastructure after moving to Dwarka Campus. Completed graduation in old campus, hence would not be able to provide inputs about the curr
•	For bsc physical science I would really appreciate if the placement cell should be at place. Also, there should be some society for this course. We took initiative to form one however i parity amongs all the courses.
•	Give some facilities to disable students to pick them metro station...
•	Hands on experience learning. Industry level projects should be introduced for practical apart from the course practicals.

•	I recommend college only because of faculty about infrastructure now college have new building so I can't say anything
•	More focus on infrastructure but as i came to know that the new campus is the most latest and advanced campus of delhi University college , so there is no need of improvement society .All the best and best wishes to the college.
•	Opportunities has to be provided for students for providing placements even after graduating from college.
•	Placement cell needs to reimproved. The college should tie-up with more companies
•	some emphasis on ECA can be given and contribution of alumni can be emphasized.
•	the placement scenario wasn't upto the mark at the time i graduated..but from what i have heard from my juniors it has been considerably improved specially since the time college i still there is room for imlrovement..Industry-student interaction should be improved and considerable boost should be given to eca societies as well.
•	There is far too many improvements required in administration as well as in account departments.
