The Social Internship Conclave 3.0 was organized on 5th October, 2018. It is the flagship event of Social Responsibility Cell of the Department of Management Studies. In all 11 Delhi based NGOs participated in the event to provide winter internships to the college students of all courses and years. The conclave proved to be a milestone as this time it hosted prospective interns from other colleges of the University of Delhi besides from our own college.

The event started by giving students a brief description of each NGO by their representatives, explaining about their objectives, programs, recent initiatives as well as future plans. Various well-known NGOs like Deepalaya, YouWeCan, Smile foundation, Womenite, Little Umbrella, Hope foundation were among present to hire volunteers for their NGOs.

A little over **500** students registered for the event online, while **187** students appeared for the interviews of various NGOs for their winter internship. **78** students were selected in for their winter internships and out of these **11** were from other colleges.

The event proved to be a huge success. Many first year students got the chance to secure winter internships with the top NGOs of Delhi NCR. Students also got an exposure to the working of various NGOs and the importance of working for the society.
